

# R-Mer Lite® II

Butyl Seam Sealing Tape

## OVERVIEW & FEATURES

The R-Mer Lite butyl seam sealing tape is a non-hardening, gray, tough, butyl elastic material which exhibits excellent sealing properties to metal, glass, and plastic lap joints. This material increases in adhesion with age after application, assuring longevity of a safe seal.

## PRODUCT ADVANTAGES

Develops a tough, durable, water-tight seal between similar and different metal surfaces such as aluminum to aluminum or aluminum to galvanized. It is an ideal material to seal between roof and side panels. Split backer makes for easy installation.

## PRODUCT APPLICATION

This material is especially adapted for sealing where space tolerance is limited and a "form fitting" material is needed to compensate for slight irregularities.

Technical Data	R-Mer Lite II Butyl Seam Sealing Tape
Size	3/32" x 2"
Rolls/Case	12
Feet/Roll	30'
Color	Gray
Odor	Slight to Nil
Cure	Non-curing
Solids	100%
Adhesion to Metal, Glass, & Plastic	Excellent
Cohesion	High
Temperature Resistance	-30°F to 200°F (-34°C to 93.3°C)
Flow	Slight
% Butyl	16%
Elongation	25% max.
Recovery	2% max.
Shelf Life	12 months
