

Adhesives

Terra-Lock™

Roof Tile Adhesive

Terra-Lock is a two-component, low rise, solvent-free spray polyurethane foam adhesive used to adhere individual clay or concrete tiles in place on Garland's Terra Seal® underlayment. Terra-Lock has superior adhesion strength compared to nails, screws, mortar and wire tie systems. The use of an adhesive compared to mechanical fasteners eliminates punctures to the waterproofing membrane. Terra-Lock adhesive comes in a disposable kit that includes two canisters (part A and B), a spray gun, hose and Colorwise® nozzle.

Installer Friendly

- Low odor
- Low VOCs
- No high Global Warming Potential (GWP) propellants

Superior Adhesion

- Quick-setting
- Prevents tile chattering
- Approved for use in the highest wind regions

Colorwise Temperature Warning Nozzle

- Nozzle changes from clear to blue when Terra-Lock Adhesive is below 60°F (16°C)
- Nozzle returns to clear when adhesive is at optimum temperature
- Provides easy visual indication that adhesive is too cold

Contains ultra-low VOCs, is low odor and contains no high Global Warming Potential (GWP) propellants.

Superior adhesion increases the strength of entire roof assembly.

Eliminates penetrations and won't puncture the waterproofing membrane.

Terra-Lock™

Roof Tile Adhesive

Features & Benefits

Installer Friendly

Low odor Ideal installation for facilities with building occupants.

Low VOCs Complies with environmental regulations and standards for safer, greener products.

Quick setting Allows for fast installation and ultimate wind uplift resistance.

Superior Adhesion

No mechanical fasteners Adhesion provides superior holding power compared to nails, screws and wire tie systems.

Prevents tile chattering Tiles will easily hold in place compared to movement with use of fasteners.

Approved in high wind regions Miami-Dade and FBC approval.

Colorwise Temperature Warning Nozzle

Nozzle changes color Changes from clear to blue when product is too cold, below 60°F.

Clear color When nozzle is clear color, this indicates the spraying chemical is at optimum temperature.

Visual indication Color change provides quick, visual indication that product is too cold to use.

Terra-Lock

**Made to Last,
Built to Bond**

Advantages of Terra-Lock

Low Odor

Superior Adhesion

Colorwise Nozzle

No Fasteners,
No Punctures
