

Facade Coatings

Tuff-Coat®

Elevate your walls with Tuff-Coat, the high-performance architectural coating designed to dampproof and enhance all types of masonry surfaces, including concrete, brick, stucco, and exterior insulation finishing systems (EIFS). Engineered for both new construction and existing walls, Tuff-Coat's advanced flexibility and soft, resilient finish provide outstanding resistance to dirt buildup while creating a powerful barrier against wind-driven rain and moisture. Safeguard your walls from cracks, leaks, and structural damage—all while delivering a clean, polished look that stands the test of time

Superior protection & durability

- Provides a powerful barrier against moisture and wind-driven rain.
- Shields walls from UV damage, reducing temperature extremes.
- Protects against cracks, leaks, and structural damage, ensuring long-lasting performance.

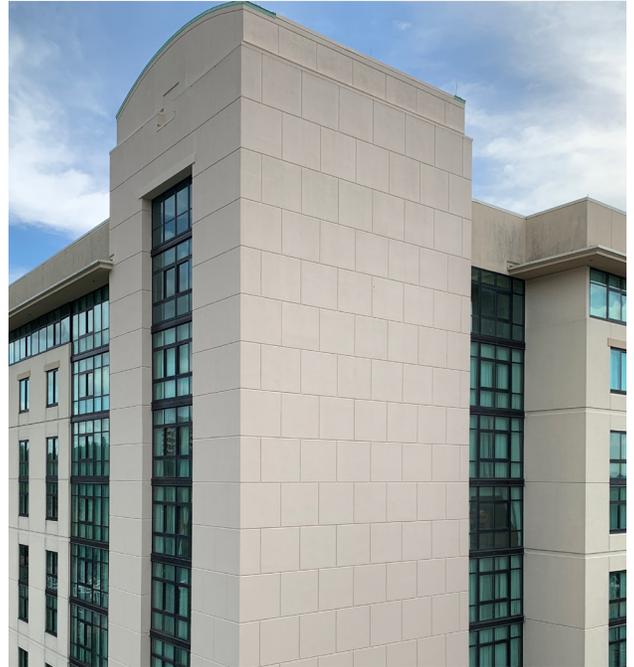

Energy efficiency & sustainability

- Highly reflective surface reduces surface temperatures by up to 18°F.
- Helps lower cooling costs by keeping external surfaces cooler and dryer.
- Prevents mold and algae growth, promoting a healthier and more sustainable building.

Easy application & aesthetic versatility

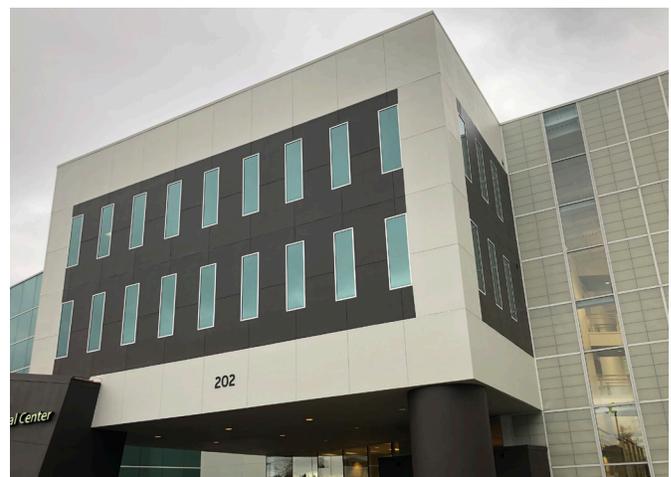

- Easily applied by brush, spray, or roller.
- Available in three standard colors or custom hues to match your vision.
- Delivers a seamless, durable finish that enhances the building's appearance.

Barrier against moisture, rain, UV, and damage

Reduces surface temperatures, lowers cooling costs, prevents mold

Easy application, customizable colors, seamless, durable finish

Features & Benefits

Maximum Protection & Long-Lasting Performance

Protective barrier Prevents water infiltration to protect walls from moisture damage, mold, and wind-driven rain.

Shields walls from UV damage Reduces temperature extremes, preventing cracking and preserving structure.

Reduce Energy Costs & Promote Environmental Sustainability

Highly reflective surface Reduces surface temperatures by up to 18°F, keeping the building cooler by redirecting sunlight and improving comfort.

Lower cooling costs & environmental stewardship Prevents mold and algae growth, reduces HVAC workload, and promotes a healthier environment.

Simple Application with Customizable, Sleek Finishes

Ease of application Fast, efficient application by brush, roller, or spray.

Custom colors Available in three standard colors or customer hues, providing design flexibility for every building style.

Tuff-Coat®
 Advanced facade coating for ultimate protection, durability, and energy efficiency.
