

CLEAN-SHIELD™ CONCRETE & MASONRY CLEANER

Before

After

Clean-Shield is a biodegradable, nontoxic cleaning solution specially formulated to safely and effectively clean, brighten and restore a variety of masonry substrates. Clean-Shield penetrates the surface and chemically reacts to remove contaminants and deposits like hard water stains, efflorescence, dirt, algae, mold, mildew, rust and other hard to remove contaminants. Clean-Shield can be used on concrete, brick, stone, aggregate and block surface and is non-corrosive, leaving behind only a cleaner and brighter surface.

Quick Info

Safe and effective: Penetrates the masonry surface to safely remove contaminants and deposits

Nontoxic: Clean-Shield's natural formula contains zero VOCs and has virtually no odor

Biodegradable: Can be handled and disposed of without harm to the environment or public health

Non-corrosive: Won't damage the existing surface

User friendly: Formula does not require any mixing and no preparation is required prior to application

THE TOP ATTRIBUTES OF CLEAN-SHIELD...

AND WHY THEY MATTER TO YOU

Safe and Effective – Clean-Shield penetrates the masonry surface to safely remove contaminants and deposits.

Why it matters – Clean-Shield improves aesthetics of masonry substrates and cleans below the surface to allow for the application of sealants or coatings.

Nontoxic – Clean-Shield's natural formula contains zero VOCs and has virtually no odor.

Why it matters – Clean-Shield doesn't compromise air quality by emitting harsh toxins or odors.

Biodegradable – Clean-Shield can be handled and disposed of without harm to the environment or public health.

Why it matters – Your facility will continue to be a safe area for both building inhabitants and the surrounding ecosystem, without the threat of toxic runoff or damage that would emerge from a harsher cleaner's waste.

Non-corrosive – Clean-Shield safely separates the contaminants and residue from the substrate at a molecular level. Once separated, the deposits are suspended in the solution and can be easily rinsed from the substrate without damage.

Why it matters – Clean-Shield won't damage the existing surface and washes away easily and harmlessly once its job is done.

User Friendly – The Clean-Shield formula does not require any mixing and no preparation is required prior to application.

Why it matters – The naturally safe formula eliminates the need for neutralizing and environmental protection procedures, which allows for quick application and considerably reduces treatment time.
