

## OVERVIEW & FEATURES

R-Mer Force Coping brings remarkable strength and an architecturally-pleasing look to a tried and true family of metal edge products designed to protect the vulnerable conditions around a roof perimeter. Utilizing anchor chairs and a simple snap-on design, R-Mer Force Coping requires zero exposed fasteners protecting the roof's edge from water infiltration, with no crimping required, reducing labor efforts.

R-Mer Force Coping is tested in accordance with the ANSI/SPRI/FM 4435/ES-1 standard, providing a code-compliant design. Complete this system with a full line of accessories including prefabricated miters, transitions, end caps, and face extenders.

- Provided in 10'0" lengths for easier project take offs, and quicker installation.
- Pre-punched fastening holes on each anchor chair to ensure proper attachment.
- Quick and efficient snap-on design with zero exposed fasteners allowing for unlimited thermal movement.

## MATERIALS & SIZES

### Coping Cover & Splice Plate

- 22-gauge G-90 Galvanized Steel
- .050" Aluminum

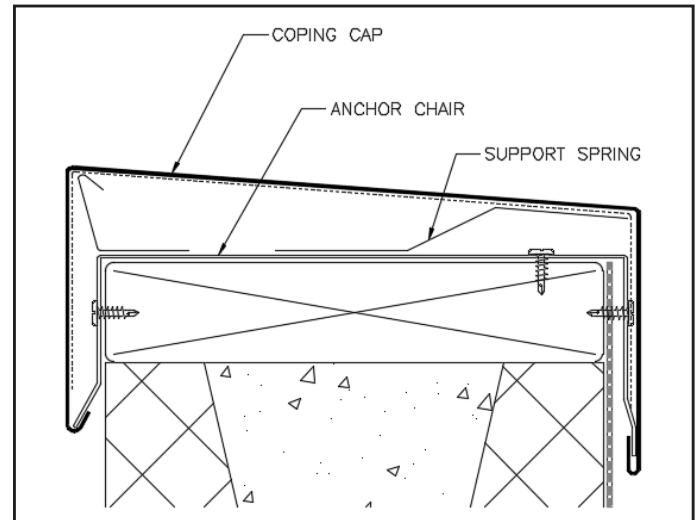

### Anchor Chair

- 16-gauge G-90 Galvanized Steel

### Testing
