

Fluid-Applied Membranes

Revitalizer™

Coatings

Revitalizer is a premium, fiber-reinforced asphalt roof maintenance coating designed to restore, protect, and extend the life of smooth built-up and mineral-modified bitumen roof systems. This high-performance, heavy-bodied formula can be enhanced with Grip Polyester™ Firm reinforcement, offering increased strength, durability, and long-lasting performance.

Cost-Effective Roof Maintenance

- Cost-effective solution to extend roof lifespan
- Seals and waterproofs, preventing water and moisture damage
- Protects against leaks, cracks, and wear

Easy Application

- Cold-applied coating, no hot kettles or special equipment
- Apply easily with spray, brush, or squeegee
- Speed up installation and improve safety

Enhanced Strength & Durability

- Forms durable, high-strength membrane with Grip Polyester™ Firm
- Resists cracking and damage with added flexibility
- Provides long-term protection, adapting to surface movement

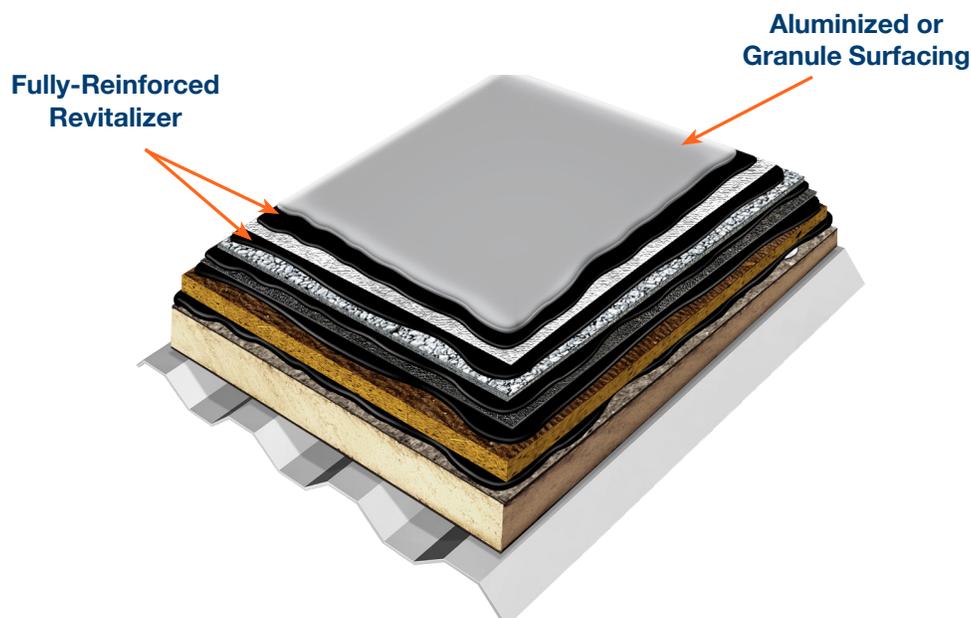

Revitalizer Restoration System with Surfacing

Cost-effective, long-lasting protection against leaks and wear.

Easy application, quick installation, and improved safety.

Durable, flexible membrane for lasting protection.

Features & Benefits

Affordable, Long-Lasting Roof Protection

Cost-effective roof life extension	Provides an affordable solution to extend the lifespan of smooth built-up and modified bitumen roofs.
Comprehensive protection	Seals, waterproofs, and guards against leaks, cracks, and wear, minimizing the need for expensive repairs and replacements.

Effortless Application and Installation

Versatile application methods	Easily applied by spray, brush, or squeegee, without the need for hot kettles or specialized equipment.
Faster installation & enhanced safety	User-friendly application process speeds up installation while improving safety by reducing risks associated with hot-applied systems.

Enhanced Durability and Protection

High-strength, flexible membrane	When paired with Grip Polyester™ Firm, Revitalizer forms a durable, flexible membrane that resists cracking and damage.
Long-lasting protection	Ensures lasting protection and durability, adapting to surface movement and expansion.
